View Fulbright Alumni Profiles</p>	
Profile/Experience:	<p>I am a partner at Beaton Research + Consulting and an accomplished consultant and executive manager. I commenced my career as a lawyer. After completing an MBA, I worked as a management consultant both with an international consulting firm and in her own consultancy, as well as in senior in-house management roles. I have led marketing, business development and pricing at two major Australian law firms. I currently consult to professional service firms to help them grow by delivering value to their clients in a way that is sustainably profitable. The strengths I bring to the BA Board are in strategy, governance, stakeholder engagement in complex organisations, project management, independence and of course a love of snow sports. I like solving problems and creating order out of chaos. My honesty, integrity and independence are unquestioned.</p> <p>I am an experienced “for purpose” board and committee member. I am also a graduate of the AICD. I have served for several years on the Methodist Ladies College committees of management for Friends of Snowsports (FOSS) and the Silver Star Rowing Club (SSRC) with extensive involvement in supporting interschool and amateur competition. I am a great promoter of involvement of all age groups in what I regard as “sports for life”. I have been a recreational XC skier since the 1980s and also involved as a parent of competitors for the last 10 years. I have daughters who XC ski, one of whom currently trains with the Vic XC ski team. In the 1980s I competed in Vic, Aust and international/world fly-casting championships.
